**Resource:** GreenFILE

**You'll Find It At:** <http://www.cabq.gov/library/online.html>

Browse by Category – **Science and Technology**

Choose Access Point: Use from Library **or** Use from Home

## **Why We Recommend It:**

- GreenFILE is a research database covering all aspects of human impact on the environment.
- In providing content that examines both the positive and negative ways humans affect Earth's ecology, GreenFILE draws on disciplines including agriculture, education, law, health and technology in providing information about the issues facing our planet.
- Comprised of scholarly and general interest materials – plus government documents and reports – GreenFILE provides well-researched and accessible information covering topics including climate change, recycling, alternative fuel sources and more.

## **What You'll Find Here:**

- GreenFILE contains approximately 295,000 entries, with full-text available for 4600+ records from open access titles.
- The database provides indexing and abstracts for more than 600 journal and periodical titles.
- A 6800 term "Green Thesaurus" helps users determine the best terms or phrases to use when searching for content.

## **Getting to the Information:**

- Start with basic searching by keyword – and use options to narrow the search as needed based on results.
- Advanced searching allows users to combine search terms and concepts, as well as limiting results by: date, publication or document type, full-text content and available images.
- Use the visual search to simplify and clarify presentation of results.
- Track and expand upon your queries through the search history feature.

## **Access Tips / Key Details:**

This service is accessible through the library system's website without meeting additional technical requirements.
